

GOLD CONTACT

Goldman Travel Corporation
announces new global contact numbers.

What does it mean for me?

At Goldman Travel Corporation, we constantly strive to find ways of reducing costs to you, our valued client.

We've recognised that global telecommunications are a significant cost to you, and when your staff are on the road around the world we want to provide a cost effective and convenient alternative to huge global roaming rates.

So, we've set up local numbers in five major cities around the world to allow you and your staff to contact our office for just the price of a local call! Even better, if you call outside our normal office hours, the call will be diverted automatically to our after hours service – and still for the local call rate to you, whenever you're using the service!

What are the numbers?

Hong Kong: (+852) 8191 2585

New Zealand (Auckland): (+64) (0) 9 889 8096

United Kingdom (London): (+44) (0) 20 3287 9656

Los Angeles: (+1)(213) 261 4223

New York: (+1)(347) 851 7482

Please note that during office hours, your call will be routed to our office.
Outside office hours, the call will be diverted to our after hours service, and our standard after hours fees may apply.
