

Gold Locate

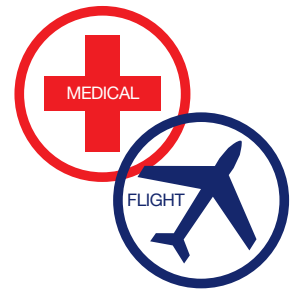

Manage your travellers with Gold Locate

Locate.

Communicate.

Assist.

Gold Locate helps you deal with a crisis easily and effectively.

Locate. Communicate. Assist.

- Isolate ‘at risk’ staff within moments and begin communicating with them
- Visual response monitoring of traveller status
- Global mapping technology lets us locate by country, region or event
- Country risk profiles updated every 15 minutes
- Ascertain risk levels prior to departure to enable more informed travel planning
- Travel advisory service with risk summaries, enabling alerts and notices by SMS

Better for the Traveller

- Reassurance of knowing that they can be located and contacted within moments should an event occur while they’re travelling
- Broadcast messages regarding developing crisis situations
- Timely assistance in the event of unforeseen circumstances
- Risk notices for different destinations; city areas to avoid

Better for the Travel Manager

- Effective crisis management
- Instant overview of a traveller’s location in the event of emergency
- Cutting edge duty of care provision
- Cheaper alternative to frequent phone calls back home
- Real time, two-way communication and response monitoring
- Event-driven alerts
- Browser-based simplicity
- Simple destination risk profiling
